The Pledge of Allegiance was led by Chairman Erquiaga.

## Item #4 – Discussion Only: Public Comment – None

## Item #5 – For Possible Action: Approval of Agenda

Committee Member Griffith made the motion to approve the agenda, moving Item #14 to in-between Items #11 and #12 as requested by presenter. The motion was seconded by Director Gray and unanimously approved by the Board.

## Item #6 - For Possible Action: Approval of the Board Meeting Minutes of October 16, 2019

Director Bonkowski made the motion to approve the Board Meeting Minutes of October 16, 2019 as presented. The motion was seconded by Director Penzel and unanimously approved by the Board.

## \*\*CONSENT AGENDA\*\*

## Item #7 - For Possible Action: Approval of Treasurer's Report for October 2019

### Item #8 - For Possible Action: Approval of Payment of Bills for October 2019

Director Giomi made a motion to approve Consent Agenda items as presented. The motion was seconded by Director Gray and unanimously approved by the Board.

## \*\*END OF CONSENT AGENDA\*\*

## Item #9 – For Possible Action: Approval of the 2018-19 Annual Audit

Michael Beers, Eide Bailly Auditor, presented the CWSD FY 2019-29 Audit results as included in the Board package. He directed Board members to specific "Notes to Financial Statements" sections that he felt needed specific explanation. Directors asked questions for clarification of various areas and highlighted 3 specific corrections that included a typo, a formatting change and a formula issue. Mr. James pointed out that the reason the actual salary amount is greater than the budget amount is due to changes in accounting procedures: half of the PERS amount is added to salary.

There was discussion regarding the finding of "Financial Reporting Material Weakness." This is the only negative finding in the audit and resulted because of a requirement by Eide Bailly that their auditors are prohibited from assisting CWSD personnel in preparation of any financial documents deemed necessary for audit. Note this is a bookkeeping weakness and not a financial error in our books. Mr. James also noted to Board Members that this is a new requirement this year and staff was not notified about this change to avoid a material weakness in this area. It is unclear if the required bookkeeping necessary to prepare financial statements for audit must be done by an outside accounting firm, separate and at cost, or if staff can be trained to provide the needed reporting. The current contract is a 3-year agreement signed with Kohn & Company before the merger with Eide Bailly last year. Staff will be looking into the contract to see if there are options for openers to renegotiate the final year of the contract due to the changes in the reporting requirements.

Three areas of concern were raised by Board members and Mr. Beers requested time to correct those items immediately. The issues included a typo and two formatting errors. This agenda item was tabled and agreed to revisit before end of meeting.

### Item #10 – For Discussion Only: Geomorphology presentation by Resource Concepts, Inc (RCI)

Lynn Zonge made her Geomorphology presentation to the Board and asked for their input and thoughts on the final project for use in public outreach.

Director Stodieck commented on how it's unfair the state won't allow streambank barb protections. The state owns the bed and the bank. If a contractor is not allowed to install these bank protections, it gets eroded and the private land then goes to the state.

Mr. James asks the Board's opinion on sharing the presentation to educate Districts, Boards and the Public.

Director Thaler says to make sure there are lots of people in the audience. Director Giomi suggests the looping is too fast; there should be more controls to slow or stop when needed. He suggests the time be cut

by two-thirds. A 20-minute presentation for staff and a 10-minute presentation for Boards would be adequate. Committee Member Griffith says it would depend on your audience type.

Director Stodieck thinks both this presentation, and the IAMCARSONRIVER video would be great for the "AG in the Classroom" project.

Director Penzel suggests more structure for the presentation; telling what the purpose of the presentation is right from the beginning.

Committee Member Griffith liked the map of the old meanders. He found it very interesting.

Cyndie Walck, Public, said it is important that it be explained what the impacts are when the river is straightened.

Director Thaler suggests changing the name of the presentation to "Living Between the 100-Year Flood."

No action was taken.

## \*\*Item #9 – For Possible Action: Approval of the 2018-19 Annual Audit

The Board returned to Item #9 after Mr. Beers corrected the editing errors in question. Mr. Beers showed the Board members the corrected report.

Director Bonkowski made a motion to approve the corrected 2018-19 Annual Audit. The motion was seconded by Director Gray and unanimously approved by the Board.

## <u>Item #11 – For Discussion Only: Presentation by Rob Holley, Dayton Valley Conservation District on the Fort Churchill Streambank Project</u>

Mr. Holley gave a presentation on this project which was originally approved for funding in 2015. The Buckland Ditch project was to install stream barbs to develop the streambank, catch sediment, revegetate, and move the thalweg away from the streambank. The project has had numerous delays. It was set to start in summer 2018, but the contractor backed out. It went out to re-bid in summer 2019, but the costs have increased dramatically in that time. The original budget was \$300,000, but now the lowest bid came in over \$500,000. DVCD has been looking at ways to get the project started, even considering doing without the stream barb component, but the engineer did not recommend doing the project without the stream barbs.

Mr. Holley explained the problems DVCD has encountered with funding and the history of the project. A main funding source, Carson/Truckee Conservation District was cut off. DVCD is now looking for a dedicated source of funding to fill this gap. DVCD is currently looking at a "Parcel Fee" tax to get funding from landowners. This measure is set to be addressed at the December Board meeting so they can get started with this project.

Mr. Holley also discussed Dayton Bridge concerns and the Minor land projects. For instance, the bridge is currently a vegetation trap. He is hoping the measure will pass and he can move forward.

The situation is dire. He is looking at not being able to exist without a fixed source of income.

Director Thaler asks how much money will be generated by the parcel tax. Mr. Holley explains that it is estimated approximately \$500,000, but this includes Fernley, so some of the funding will need to be dedicated to Fernley. All parcels in Dayton Valley Conservation District are included and would pay towards this fee with tax on parcels. Director Stodieck asks if this is available to all conservation districts. Mr. Holley answers yes.

Director Penzel inquires about what dollar amount has gone to projects and what amount has gone to other areas such as salaries and operations expenses. Mr. Holley did not have that information.

Director Bonkowski thinks that we need to look at this now and consider ending the ongoing extensions of contracts, and in this case, start with a fresh grant. Mr. James agrees and explains that permits, weather, contractors, floods, etc. all impacted this project. There are lots of reasons why this project has been pushed

back so far. He suggests we terminate this contract and start fresh with a new contract.

Director Bonkowski says that until DVCD can match funding with the project scope, we need to hold off on this project. All money needs to be accounted for.

Mr. Holley thinks we need to get closer to a realistic bid of \$500,000 - \$750,000 for this project.

Committee Member Griffith wonders with the obvious problems this project has had, how do we know it will be any different moving forward. Do we keep throwing money at it? Director Bonkowski says no, that's why we must make sure DVCD has other funding in place before we enter into another agreement.

Director Stodieck asked Mr. Holley about the negative changes to the site during flood years and Mr. Holley reported that yes, there has been about 4 feet of bank lost since 2017.

No action was taken.

## <u>Item #14 – For Discussion Only: Presentation of the 2019 Water Year</u>

Mr. James gave a presentation comparing flows between water year 2017 and 2019.

No action was taken.

## <u>Item #12 – For Discussion Only: Update on the various funding agreements that were carried over from the fiscal year 2018-19</u>

Mr. James explained why there are differences between the actual costs and the budgeted amount for several projects.

No action was taken.

## <u>Item #13 – For Possible Action: Authorize Staff to submit an application for the Environmental Education Region 9 EPA Grant</u>

Mr. James reviewed a proposed EPA grant that staff would like to pursue. This particular grant requires a 25% match and that 25% of the grant goes to the third parties. He explained that this is to help smaller entities get funding and to help them with their outreach programs.

Director Bonkowski made a motion to authorize CWSD to submit an application for the Environmental Education Region 9 Grant not to exceed \$100,000. The motion was seconded by Director Gray and unanimously approved by the Board.

## Item #15 - For Discussion Only: Update on Lost Lakes

Mr. James gave a beautiful video presentation on Lost Lakes and explained the history of our water rights.

No action was taken.

### <u>Item #16 – For Discussion Only:</u> Update on State Land Permitting

Mr. King and Mr. James have attended meetings aimed at streamlining the permit process. It was primarily looking at conservation district projects and maintaining finished projects. The idea is to make new permits as simple as possible for conservation districts to do routine maintenance.

Director Stodieck asked about older projects, specifically his diversion structure. Is there any resolution on this issue? Mr. James explained that this focus is on the river restoration projects. This could be used as the framework for diversion structures. Mr. James will keep the Board advised on progress.

### <u>Item #17 – For Discussion Only:</u> Staff Reports –

• Mr. James reported the CVCD has completed the Cradlebaugh Bridge project. CVCD needed CWSD to advance \$40,000 to pay the contractor. This amount will be repaid in February or when they get

- reimbursed by NDEP.
- Mr. Fryer reported the Watershed Literacy video project is now out on all media and has received a
  very positive response! The IAMCARSONRIVER.ORG video has had over 20,000 views to date. Last
  week Ed, Shane and Brenda were interviewed on public access television! It's in the newspapers, on
  the radio, on websites and all social media. There will be over 39,000 I AM CARSON RIVER stickers
  handed out throughout the watershed by the end of January!

Correspondence – None

No action was taken.

<u>Item #18– For Discussion Only</u>: Directors Reports – None

No action was taken.

<u>Item #19 – For Discussion Only</u>: Update on activities in Alpine County –

Committee Member Griffith reported the following:

• Douglas County will be receiving a letter from Alpine County asking that all vape products no longer be sold in Douglas County. He voted against it.

The No action was taken.

<u>Item #20 – For Discussion Only:</u> Update on activities in Storey County – None

<u>Item #21 – For Discussion Only</u>: Public Comment – None

There being no further business to come before the Board, Chairman Erquiaga adjourned the meeting at 9:15 pm.

Respectfully submitted,

Catrina Schambra

Secretary to the Board

TO: BOARD OF DIRECTORS

FROM: EDWIN D. JAMES

**DATE:** December 18, 2019

**SUBJECT:** Agenda Item #9 – <u>For Possible Action</u>: Authorize General Manager to attend the NWRA Annual Conference in Las Vegas, February 11-13, 2020

**DISCUSSION:** The General Manager (GM) requests authorization to attend the NWRA Annual Conference in Las Vegas, February 11-13, 2020. The General Manager will be a moderator, so the cost to attend the conference will be \$330. Additional cost will be hotel accommodations and meals. There will be no transportation cost since the GM will be driving his own vehicle.

**STAFF RECOMMENDATION:** Authorize GM attendance at the February 2020 NWRA Conference.

Dear Evaluation Committee.

It is with great pleasure that I would like to nominate Mr. Richard Wilkinson for consideration for the Andy Aldax Award. In addition to performing his job at an exemplary level, Richard demonstrates an extraordinary commitment to the Carson River Watershed, as well as the Carson Valley as a whole.

Richard is a specialist in environmental resource sciences. Through his positions at the Carson Valley Conservation District and Dayton Valley Conservation District spanning the last twelve years, he has worked on numerous projects in the Carson River Watershed. Richard takes it upon himself to provide exceptional support and service to land owners, the general public, and everyone he meets. He discerns quickly their individual needs and moves efficiently to provide key information to projects and natural resource issues.

Richard was raised in the Carson River Basin and remains within the community today. After receiving his degree in Environmental Resource Sciences from UNR, he went to work doing what he loves. While his adventures took him to the east side of the state, it wasn't long before he was back home in the Carson River Basin. His work stands out in and around Dayton along the river banks, through his work with the Dayton Valley Conservation District. Now, he finds himself at the Carson Valley Conservation District working tirelessly to restore our valley's greatest commodity; the Carson River. Richard believes that creating a river that can change freely without doing irreparable damage is a diverse and healthy river. His philosophy doesn't end there; Richard is known for getting projects competed in a timely manner with minimal negative effects. His river restoration projects are so successful that many would never know that the area was once in need of severe ecological restoration.

Fondly known as the "go-to" for most things within the Carson Valley Conservation District, Richard receives countless calls daily from government entities and private landowners calling upon his experience and provided for conservation information and advice. He is devoted to protecting the agricultural infrastructure and natural resources of the unique watershed that he calls "home".

Sincerely,

Mike Hayes

Dear Selection Committee for the Andy Aldax Award,

There are many unsung heroes in the Carson River watershed, people making a difference and educating others about the health of our river without fanfare or expectations of recognition. Phyllis Lipka Atkinson is our watershed hero.

Phyllis began teaching 7th grade science in Silver Springs, Nevada, near the Big Bend of the Carson River, in 1995. River Wranglers (RW) worked with her and because of her enthusiasm and interest, students began science exploration on the banks of the Carson River at Ft. Churchill State Historic Park. When she left Lyon County, she took a teaching position at Carson Middle School where she maintained her relationship with River Wranglers and enjoyed many years teaching 6th through 8th grade science classes. She was awarded a water quality monitoring trunk from the Nevada Division of Water Quality Planning and she arranged field trips to Ambrose Park with 8th grade students. I remember her gathering her students around her along the trail leading down to the river and helping them visually understand the concept of a watershed as she pointed out the surrounding mountains, all draining snowmelt to the Carson River. It was an "aha moment" when you realized that they understood how the watershed was related to the river. The water monitoring trunk outfitted her students with chemical test kits, goggles and gloves to perform tests to check pH, temperature, dissolved oxygen, and turbidity. They also had boots, kick nets, and scopes to assess the biological diversity in the river. These are our future scientists, artists, beauticians, teachers, factory workers, writers, parents, mechanics, politicians and voters learning the science and value of healthy rivers.

While Phyllis is being paid to teach, her creativity and ingenuity make it possible to develop lesson plans using the Carson River as her platform. She is very inclusive and when not able to link the subject matter directly to Carson River education, she encourages other teachers to work with us. One year, with help from Phyllis, RW presented the Carson River History trunk to all 7th grade students studying Nevada history at Carson Middle School. She believes in the value of watershed-based education and encourages others to also value place-based education.

Phyllis Atkinson served on the board of directors for River Wranglers as well as the Silver Saddle Ranch. She was one of the key organizers of the High Sierra Camp which provided backcountry experiences for Nevada youth. She was selected as the Science Department Chairperson for the 6th and 8th grades at Carson Middle School. In 2001 she was recognized for her leadership by the Carson River Advisory Committee. Phyllis was selected as the Rotary Club Teacher of the Month, received the Golden Apple Award from the Carson City School District and was Teacher of the Year at Carson Middle School and Pioneer High School.

Phyllis Atkinson, in her 25th year of education, is in her second year at Pioneer High School. She works diligently to give students real life science opportunities along the Carson River. Her Leadership class is involved in a year-long Carson River Watershed mentoring program with Seeliger Elementary 4th graders.

It is easy, just and fitting that RW sing the praises of an advocate like Phyllis Atkinson. She makes a difference daily to the students in her classroom and those students carry forth the message that the Carson River is our Lifeline in the Desert.

Sincerely,

Línda Conlín

Nominating Committee, Andy Aldax Award

**Dear Nominating Committee:** 

I am writing to nominate Phyllis Atkinson for the Andy Aldax Award. Phyllis came to Pioneer HS from Carson Middle School as their science department chair. For some veteran teachers, an easy teaching schedule is on the radar, but not Phyllis. She transferred to us offering to teach chemistry and ended up teaching biology. She also signed up to help save our only CTE program, the one that PHS started for the district and the State of Nevada.

Phyllis ended up teaching four new classes at the high school level and she did it with grace, professionalism, and a positive "go-get-em" attitude. She took the path less traveled, and it has meant the all the difference for a small alternative high school and its students. Under Phyllis's expertise, our HOSA/CTE students competed along with medical magnet schools around the state and other comprehensive high schools, and one of her students scored the highest in the completion exams Carson City.

Phyllis is the type of veteran teacher who eagerly takes additional professional development when she doesn't have to. She attended Tech Café sessions after school, participated in optional school CTAC sessions, took her students to the Carson River to study Science "hands-on" in the outdoors, and she attended CTE meetings at Carson High. Along with Phyllis' professionalism, leadership, success as science and CTE teacher, and department lead at Pioneer, she always has a pleasant and helpful attitude. She mentored a new science teacher this year and represented PHS at CTE meetings to help keep our program supported in spite of our small size. We are very grateful for her leadership on campus and her willingness to take on such a Herculean task at teaching new classes greatly needed for our students.

Thank you for your time in reading this letter.

Sincerely,

Jason Zona
