

CWSD Call for Funding Requests FY 2025-26

In the next couple of months CWSD will begin developing its budget for Fiscal Year 2025-26 and determine what projects to help fund. If you have projects you wish to be considered for funding in Fiscal Year 2025-26, please submit your request in writing by **Jan. 16, 2025**. See posted CWSD's *Criteria for Evaluating Funding Requests* and *Request for Funds*. ***It is a fillable PDF form, so be sure to save the file labeling it with your entity name and submit it as an email attachment and email to catrina@cwsd.org by the due date.***

CWSD's Finance Committee will meet sometime in February to consider all the projects submitted. Although not required, it is strongly recommended that you be available to present your proposal to the Finance Committee. All applicants that submit a funding request will be notified of the date of the Finance Committee meeting. Providing match for your project is not required; however, those projects that can provide match will be given greater consideration. If your project is accepted, you will be required to submit a Carson River Watershed Project Summary (CRWPS) Form upon completion of your project. The form will be due with the submittal of your last invoice.

Projects should be associated with CWSD main goals which are: water supply, flood protection, river restoration, water quality, or outreach. Please call Ed James at 775-887-7456 if you have questions as to whether your project meets CWSD main goals.
